³ Aggregate committed capital of funds Mediterrania Capital (III) and Mediterrania Capital (IV)

We performed the following procedures based on our professional judgment:

- We verified that the Policies address each of the Principles.
- We assessed the impact management system, using specific criteria, including quality, robustness and maturity.
- We conducted two interviews with two persons in the investment team in charge of defining, applying and enforcing the Policies and one interview with the Co-Founder.
- We relied on MCP's calculation of the assets under management of the funds (Mediterrania Capital (III) and Mediterrania Capital (IV)), which are aligned with the Principles.
- We walked through a review of the systems and outputs for a selection of portfolio companies of the funds (Mediterrania Capital (III) and Mediterrania Capital (IV)) to check the correct application of the Policies.
- We examined the integrity of the information provided in the Statement in relation to the Processes.
- The deliverables include this verification statement and an internal report with consolidated findings and recommendations provided for the management team (not for publication).

The scope of our procedures does not include however an assessment of the effectiveness of MCP's impact measurement approach nor the verification of the resulting impacts achieved.

Limited assurance conclusion

Based on the procedures performed and the evidence obtained, we considered that MCP's Policies comply, in all material respects, with the Principles for EUR 500 million of assets under management⁴ ("Covered Assets") as of 31st of March 2024.
